

John "JohnRock" Stewart

August 2, 1963 - September 18, 2024

John Alexander Stewart "John Rock", 61, of Amarillo, TX passed away on Wednesday, September 18, 2024.

John was born in Germany on August 2, 1963. His family was of military life for 20 years before finally settling in El Paso, Texas. John graduated High School in El Paso and not long after he moved to Amarillo.

John was the owner of Lone Star Interior from 1997-2000. He enjoyed disc golf and baseball... a lot! He and his proudest joy, David enjoyed hiking, traveling, going to the lake, camping and so much more together. John helped with coaching the Texas Trauma Baseball Team, a joy that he talked about many times even days before his passing.

He was preceded in death by his parents, David and Linda Stewart and a sister, Sandra Stewart.

John is survived by his son, David Stewart of Amarillo, Texas who is currently serving in The United States Army and many wonderful caring friends.

At John's request there will no services. Memorials can be made as donations in John's honor to Texas Trauma baseball team, Gentiva Hospice, Faith City Mission or Georgia Manor Nursing Home. The family would like to express a special thank you to Casey Wood, Kevin Moore, Georgia Manor, Faith City Mission and Gentiva Hospice for their wonderful support.

John was a good man and a faithful friend, neighbor and coworker. It is sad to hear of his passing. John was very gifted at whatever he did. John and fellow Trooper classmate (El Paso Eastwood High) Paul Rospirim are the founders of the disk golf course in Amarillo. After using trees in various parks in town in early 1985. The two collaborated with the City of Amarillo to eventually install a nine hole sanctioned course at Thompson Park and with the help of fellow enthusiasts Vess Barnes and Troy Lowery the four built the first course and over several years it grew with the city's permission and then help into the challenging 18 hole course that so many disk golfers still enjoy today. I asked John after working with him for many years at Denman Building Products how he acquired the nickname "Rock" and his answer really surprised me. He told me it was because of me coming to work at Denman's. He was learning how to run ceilings and when I came over from Consolidated Acoustics all I did because of my size was ceilings so they moved John from ceilings to sheetrock and his fellow workers started calling him Rock! I don't think initially John was to thrilled about sheet rocking but he turned out to be an absolute craftsman in both fields and he grew to like the nickname too! RIP Rock until we meet again.
