“ I met Glen while working at the city of amarillo. I worked on medium and heavy trucks as a mechanic and he drove them working for the solid waste collection dept. Lo and behold years later as he retired he bought a house next to mine and he became the best neighbor I could have hoped for. The memories that man left for my family and I will always be remembered and cherished. So many, that I could write you all a small book. Some funny, some private, a lot of how he practiced his outlook on life. This in itself was something to behold. But on a more serious note Glen my friend, will always be appreciated for his helpful spirit. He would see me working on cars outside of my house and sure enough, here he came, (David, WITH A STERN VOICE, my garage is empty, put this thing in there!!). He would always razz me about not knowing what retirement was after I retired. He would stand inside his house on the window facing my front lawn and would watch me shaking his head and would open it and yell at me (David, you are making me tired!!, as I mowed my yard, his yard, washed my car or two, and I scraped and painted my house two summers ago). Glen,thank you for everything. We love you, we will miss you, and we will always remember you. REST IN PEACE AND WE SHALL MEET AGAIN, AND LAUGH AGAIN!!
